Re: Mountain West Striping

Thank you for your business that Mountain West Striping has enjoyed over the years. We know it has been mutually beneficial to all parties. Alas, the cost of doing business continues to increase and in order to remain competitive we need to increase our prices.

In the past we have been able to do projects and provide supplies, portal to portal, at the rate of 10.66 per gal. This pricing has become increasingly difficult to maintain and to remain profitable. This is due to the increased costs of the new maintenance paint spec that is now required by region two maintenance. Our material costs have been increased from.

BEADS OLD SPEC. 20.5 CENTS PER POUND NEW BEAD COSTS ARE .58 CENTS PER POUND

PAINT COSTS OLD SPEC. \$4.32 PER GALLON NEW SPEC PAINT COSTS ARE \$7.25 PER GALLON

Adding these material costs to our existing contract would be as follows

\$2.93 increase for paint \$3.00 increase for beads per gallon. These increases would put the new price per gallon with no other increases at \$16.59 per gallon. That is the new price per gallon of installed hiway traffic paint we are requesting.

If you have any questions or we can provide any additional information, please feel free to contact the undersigned. Thank you. We look forward to a great continuing relationship. Thank, you for your consideration.

Respectfully,

Randy Debban
